The Magnolia saloon is taking in the Old Treasurer's office.

The Indian had recently stabbed at the Stewart Institute is able to be out again.

The demi monde are getting ready to obey the city ordinance and move beyond the 400-yard limit.

The earthquake shocks was very slight in Reno and the residents are very much put out at the slight.

"Our Dick" will appear in Sacramento May 10th in a mixed trotting and pacing race against several California cracks for a \$500 purse.

The warning in the Tribune that those who attended the silver meeting would look out for Democratic jobbery does not seem to have been necessary.

Prince Bismarck was born on All Fools' day, yet the young German Kaiser would make a remarkable good bargain if he could swap his reputation for wisdom for that of the veteran at Friedrichsruhe.

Consul-General Wallace writes from Melbourne to warn Americans against emigrating to that country. He says the cities and the country districts are emerging from the frenzy of a land boom, and that all trades are stagnant.

The APPEAL would like to see its contemporaries in this city come out squarely and announce how they stand on the question of free coinage and protection to Nevada's chief industry. Better declare for it squarely or fight it openly.

Four years ago the people of Nevada were assured that Harrison was all right for free coinage. The voters will be a trifle slow this year in taking anybody's word on that proposition. They will be in a position to judge for themselves.

By yesterday morning's express, direct from New York, was received a lot of new books which will be sold by Cagwin & Noteware at the publishers prices. They also have Edward Bellamy's journal "The New Nation," a sturdy advocate of free silver coinage. On sale for five cents a copy.

Cigarettes Did It.

Jerry Dunsworth, formerly a prisoner under Prof. Thomas Cavanaugh the Virginia roller-skater, escaped at Steamboat Springs yesterday.

Marshall Moore requested Cavanaugh to bring the prisoner to Carson but he got off at Steamboat to take a drink and smoke a cigarette during which interval Mr. Dunsworth came to the conclusion that it was not the correct thing to make the Government pay his railroad fare and immediately left the train to walk the balance of the way. He had not arrived in Carson at a late hour. Dunsworth sold whiskey to Indians.

Perfected Photography.

Dove & Painter, the photographers of Pacific Coast fame are now in Carson City with a complete outfit. These gentlemen will produce Aristo Cabinets at \$3 per dozen, which will be done in the height of finish and pose. They have samples always on tap and if the work don't suit there is no objection on their part to a refusal to accept. alw.

Notice to Electors.

The following nominations, duly certified, according to law, have been filed in my office, to be voted for at the election to be held in Carson City, Nevada, May 2, 1892:

Trustee at Large—F. R. Hofer, Republican.  
Trustee First Ward—Alex M. Ardery, Republican.  
Trustee Second Ward—E. M. Reynolds, Republican.  
WM. HY. DOANE, Clerk.

The Fire Pail.

Millard the plumber is the agent for a new fire extinguisher. It is a covered pail filled with water with some chemical in the top.

In case of fire you smash in the lid and the chemical mingling with the water will put out any incipient fire.

Mrs. K. Knowles desires to inform the public that for the next 20 days she will dispose of millinery at cost, as she is desirous of making a change of business. Now is the time to get bargains in trimmed and untrimmed hats, feathers, flowers, and in fact, everything in her line. All goods sold without reserve. This is a bona fide sale, as the lady has business interests in San Francisco which require her attention.

THE EARTHQUAKE.

It Gives California Another Shaking.

Yesterday's earthquake was nearly as severe in California as the one preceding it. The earthquake at Winters was a benefit to the town as it gave it natural gas. Woodland suffered severely and business is suspended.

SACRAMENTO, Apl. 21.—The State Capitol building suffered by this morning's earthquake. The gigantic building trembled violently and there was a general exodus of clerks. It was discovered that a crack was made in the ceiling extending from one end of the building to the other and also through the office of the Supt. of Public Instruction clear into the Assembly Chamber. Books were thrown from shelves and general disorder reigned. Public schools were dismissed. The people are growing intensely nervous, and families living in brick buildings are looking for less dangerous quarters.

Dixon, Cal., April 21.—At 9:43 this morning a severe shock reached us, completing the wreck which was before threatened. Only two or three brick-buildings in the town are safe.

The people were again panic-stricken and believe that the ruin of the town will be completed before the shocks cease.

San Francisco, 7:30.—There was a slight shock here at 7:15. No damage.

There was another earthquake in Carson yesterday morning at 9:45. It lasted several seconds and stopped several clocks.

THE LATEST.

There was another slight shock last evening at 7:15. People are getting a trifle nervous.

Be More Explicit.

There has not been such a political revolution in Nevada since it was organized as a Territory as at the present time. Every newspaper in the State, with the exception of the Virginia Enterprise, Reno Gazette and one or two at Carson, is outspoken for free coinage, and determined to support no man for President or any other office who is not an advocate of remonetization. —Journal.

"By one or two at Carson" it alludes to our two contemporaries. One is squarely against silver and the other is squarely on the fence—its favorite attitude. As neither could help the silver cause in the slightest their absence from the ranks will not be missed. The Journal however should be more explicit.

Complimentary to "Cleve"

ED. APPEAL.—The Harrison Gold Bug, (formerly the Enterprise), terms the Free Coinage Anti-S. P. R. R. meeting, of Wednesday night, as one of the "Cleveland Club." This true, "Black Wallace vainly opposed the Air Line R. R. project before our last Legislature, and that "Cleve" beat the "Fourth and Townsend Lobby;" yet the meeting was devoted largely to other matters than A. C. Cleveland's daring project for Nevada's relief. The Gold Bug should not waste words in praise of our genial friend "Cleve," but should form a like club on the Comstock, i. e., after finishing the bicarbonate of gold treatment it seems to be undergoing. A FREE VOTER.

Of Interest to Drunkards.

Dr. R. A. Kitto, of Racine, Wis., sends the APPEAL the following formula, which he says is an infallible cure for drunkenness: Icthyol Ammon Sulpho. . . 2 drachms  
Hodrostis Sulphate. . . 1 drachm  
Tr. Nux Vomica. . . 2 drachms  
Resorcine. . . 2 drachms  
Tr. Columbo (non alcoholic). 3 oz.  
Liq. Ammon Acetatis, q. s. 3 oz.  
Two teaspoonfuls every three hours, for three weeks.

The Columbo must be non-alcoholic. Evaporate the alcohol, then supply the volume left by evaporation of the alcohol by an equal volume of water, otherwise an insoluble precipitate will be had.

Campfire.

Tonight Oustar Post will hold one of their enjoyable Campfires. The fire will be kindled about 8 o'clock and will blaze most of the night, shedding a welcome warmth to all who come within its circle.

Members of the Post are requested to appear in uniform.

We make a specialty of the cultivation of Evergreens, at Evergreen Nurseries, located at Evergreen Door County, Wisconsin. George Pinney, Prop. Send for catalogue. Every body can have evergreen hedges. 47 tf.

Amedee.

An observing individual who recently visited Amedee in Honey Lake Valley, says the boomers, who are inducing unsophisticated home seekers to visit that place and purchase lands or lots, ought to be prosecuted for obtaining money by false pretenses. The soil is strongly impregnated with alkali, so that nothing save stunted sagebrush and greasewood grows there. There are no trees or shrubbery, nor in fact vegetation of any kind at that place, and probably never will be unless soil is taken there from some other part of the valley.

It is now the terminus of the N.-C.-O. Railway which of course makes it somewhat lively but the moment the road is extended a mile further on, it will be deserted, save by those who may go there to get rid of the itch. The atmosphere is impregnated with sulphur from the hot springs which may have valuable medicinal properties, but aside from that there will be nothing to attract people to Amedee when the road is extended.

Conservative Meeting.

The silver meeting at the Opera House was in all respects an orderly and conservative affair. There was an absence of the usual cut-and-dried programs which have for years characterized public meetings in Carson.

There was no demagogism nor appeal to prejudice or passion, but a general interchange of sentiment on the one vital question of protection to silver and Republicans and Democrats were in full accord on this subject.

It was a meeting of business men and tax payers and shows to the State at large that Carson is as fully alive to the importance of this subject as any other locality in Nevada.

Faster Time.

The San Francisco Chronicle says an important change in the overland time table is to go into effect on May 1st. The fast mail, which has heretofore arrived in San Francisco at 11:45 A. M., will arrive at 9:15 A. M. Of the two and a half hours saved time, one and a half will be saved between Ogden and San Francisco. The evening west bound instead of arriving as hitherto at 10:45 P. M., will reach San Francisco at 9:45 P. M., making up one hour between San Francisco and Ogden. Eastbound trains will leave at the same time as heretofore, but will gain time between San Francisco and Ogden, making better speed and closer connections with both the Union Pacific and the Denver and Rio Grande at Ogden.

A Great Scandal.

Montreal, April 20.—The city of St. Johns, Quebec, is excited over the arrest of four of its citizens—Jules Quesnet, Joseph Prairie, L. H. Genest and H. Brossard—by officers of the Canadian Secret Service on charges of belonging to a club formed for immoral practices, parallel to the Cleveland-street scandal in London.

The club was denounced from the pulpit by the curate of St. Johns, which led the authorities to engage the services of the Secret Service. Besides the above, who are prominent citizens, a large number of other arrests are expected, as there are twenty-five members in the club.

Sale of Blooded Stock.

About the middle of next month John Sweeney will sell at his ranch at public auction about fifty fine Gibraltar fillies in foal to Alpha and Triumph, and a number of yearlings and two-years-olds by Gibraltar. The sale will be without reserve and there ought to be a large attendance, as this will be the last sale of Gibraltar colts in this State, as Gibraltar will be taken East after the sale. A22

There are three lotteries, the On Tai Co, the Wong See Co, and the Tuck See Company running in full blast in Chinatown. Tickets and lists of each drawing are publicly displayed in all the China stores. The drawings—two every day—are conducted openly, in fact, the whole business is run in open defiance of the law. White men cannot run a lottery in Nevada, yet how is it Chinamen are allowed to do so. Have the Chinamen a "pull?"

It requires thirty-two people to produce a bank note, no matter if its denomination is one dollar or \$10,000. To maintain the bureau requires an annual appropriation of \$1,100,000.
